

Water and Sewer Rate Fee Study

YOUR FEEDBACK IS IMPORTANT TO US!

Establishing water rates is complex and highly regulated, and requires gathering extensive data to determine an appropriate rate structure. It's been several years since Brea last completed a comprehensive water study to determine the costs of delivering water. The goal of the upcoming rate and fee study is to ensure that the revenues cover the cost of services, meet the debt coverage and reserve requirements, and provides revenue for future capital improvement projects.

As the City embarks on the comprehensive rate and fee study, we would like to know the community's priorities. Tell us, how would you prioritize water and sewer rate pricing objectives?

Scan the QR code or visit cityofbrea.net/waterratestudy to submit an electronic feedback form to share your priorities with us.
